Open to

Part-time medical advisor and clinical consulting roles in digital health, health-tech product teams and healthcare consulting, and **AI training** for clinicians and healthcare teams.

Registration

Licensed physician, Ordem dos Médicos no. 74473

Languages

Portuguese: native
English: B2 (CEFR)

Skills

Digital health

- Workflow analysis and redesign in primary care
- Generative AI for clinical work and prompt design
- Clinical content and safety review of own digital tools
- Medical localisation, English to European Portuguese
- Telemedicine operations
- Python (introductory)

Delivery

- Scrum Product Owner
- Pitching to hackathon juries, SNS Executive Direction and the World Health Assembly
- Course and workshop design; event organisation

Clinical

- Family medicine across all ages
- Chronic disease and prevention
- Evidence-based decision-making

Profile

S Front-line family medicine resident in the SNS, with telemedicine experience at two teleconsultation providers. Motivated to teach the safe, responsible and ethical use of AI: minimising risk and maximising productivity, for the wellbeing of patients and professionals.

O Scrum Product Owner and co-creator of OSGA, in daily use at my practice. Trainer on the mandatory Digital Health & AI course for 2nd-year family medicine residents (Lisbon and Tagus Valley); coordinator of the APMGF Digital Health study group. 14 talks and workshops on clinical AI. Two hackathons won in 2026.

A **Digital health, clinically grounded.** Translates frontline needs into requirements, tests tools with real users, and weighs clinical safety and evidence before scale.

P Keep caring for people one consultation at a time, and help build the tools that give every clinician more time to do the same.

Digital health projects

Featured · Scrum Product Owner

OSGA: managing indirect contacts in family medicine

Co-created with Ana Póvoa and Alice Avanzo using Scrum: a visible queue, with owners and a review cadence, for prescription renewals, results and admin requests that otherwise get lost between professionals. Implemented at USF Carcavelos; outcome evaluation in preparation. Presented to the ULS Lisboa Ocidental technical council and SNS Executive Direction; oral communication at WONCA Europe 2026.

Best oral communication, practice report · 43rd APMGF National Meeting 2026

1st place · 2026

RastreIA

AI-supported screening concept, AI Medica hackathon, Champalimaud Foundation.

Clinical AI · Teaching

AI in primary care

Hands-on training on saving consultation time with generative AI safely: family health units, resident groups, GP trainers (Universidade Católica), APMGF Azores.

Honourable mention · 2025

A(tensão): the silent alert

Hypertension awareness protocol. Mission 70/26, Portuguese Society of Hypertension.

1st place · 2026

NotAlone

Global Public Health Hackathon, “Hack for Health Equity”. Also presented at the World Health Assembly, Geneva.

Clinical AI · Care navigation

From noise to action

AI to search community and ULS resources during the consultation. 43rd APMGF National Meeting (2026).

Vaccination · Pitch finalist

VaxPro

Vaccination uptake intervention. Finalist, APMGF Autumn Meeting 2025.

Education

Integrated Master's in Medicine (MD)

NOVA Medical School, Lisbon, 2015–2022 · Erasmus+, Palacký University Olomouc (2020)

Selected training

- ChatGPT for Physicians, >30 h (2025)
- Python for Physicians, workshop (2025)
- Clinical CPD: Pain Medicine (2026), Geriatrics (2025), Thoracic Imaging for GPs (2025), Contraception 4.0 (2024)

Beyond medicine

Scouting, 2009–2022. Team leader and group leader, then two years as a trainee adult.

Endurance. IRONMAN 70.3 Cascais finisher (2025); HYROX-style training, running, canyoning.

Off duty. Rock music and festivals, nature trails, books, and getting to know other cultures and their customs.
