Delivery

- Scrum Product Owner
- Pitching to hackathon juries, SNS Executive Direction and the World Health Assembly
- Course and workshop design; event organisation

Clinical

- Family medicine across all ages
- Chronic disease and prevention
- Evidence-based decision-making

Profile, as a consultation note

S Family medicine resident in the SNS, who also worked in telemedicine for two teleconsultation providers. Keen to teach colleagues to use AI safely, responsibly and ethically, so it saves time without adding risk for patients or professionals.

O Product Owner of OSGA, now in daily use at my unit. Trainer on the mandatory digital health and AI course for second-year residents in Lisbon and Tagus Valley. Coordinator of the APMGF digital health study group. 14 talks and workshops on AI in clinical practice. Two hackathon wins in 2026.

A **Digital health, clinically grounded.**

P Keep seeing patients, and help build tools that give clinicians more time with them.

Projects

OSGA

In our unit, indirect contacts (repeat prescriptions, test results, paperwork) used to get lost between professionals. With Ana Póvoa and Alice Avanzo I built OSGA, a shared queue where every request has an owner and gets reviewed regularly. We worked in Scrum and I was the Product Owner. It is now part of daily work at USF Carcavelos, and we are preparing an evaluation of its impact. Presented to the ULS Lisboa Ocidental technical council and the SNS Executive Direction, and at WONCA Europe 2026.

Best oral communication (practice report), 43rd APMGF National Meeting, 2026

RastreIA

1st place, 2026

An AI-supported screening concept, built at the AI Medica hackathon at the Champalimaud Foundation.

Teaching AI to clinicians

Sessions in family health units, resident groups and GP trainer meetings at Universidade Católica, and workshops at WONCA World and WONCA Europe.

A(tensão)

Honourable mention, 2025

A hypertension awareness protocol. Mission 70/26 award, Portuguese Society of Hypertension.

NotAlone

1st place, 2026

Won the Global Public Health Hackathon, then presented at the World Health Assembly in Geneva.

From noise to action

Using AI to find community and ULS resources during the consultation. 43rd APMGF National Meeting, 2026.

VaxPro

A vaccination uptake project. Finalist in the pitch competition at the APMGF Autumn Meeting, 2025.

Education

Integrated Master's in Medicine (MD)

NOVA Medical School, Lisbon, 2015–2022 · Erasmus+, Palacký University Olomouc (2020)

Courses

- ChatGPT for Physicians, >30 h (2025)
- Python for Physicians, workshop (2025)
- Clinical courses in pain medicine, geriatrics, thoracic imaging and contraception (2024–2026)

Outside medicine

13 years in scouting, as team leader and group leader and then two years as a trainee adult. Finished IRONMAN 70.3 Cascais in 2025. These days: HYROX-style training, running and canyoning. Also rock festivals, nature trails, a good book, and getting to know other cultures and their customs.

Clinical experience

Resident, Family Medicine — Jan 2024 – present
USF Carcavelos · ULS Lisboa Ocidental
Primary care for patients of all ages. I take part in the unit's digital projects and push the team to digitalise more, and I organise activities for colleagues and patients, such as the unit's meetings and an HPV screening week.

Physician, senior residence — 2025 – present
Cofre de Previdência · Loures

Telemedicine physician — Mar 2024 – Sep 2025
Serviço Médico Permanente

Telemedicine physician — Mar 2023 – Feb 2024
Knok Health

Foundation year — Jan – Dec 2023
Hospital Distrital da Figueira da Foz · USF Buarcos · Public Health Unit

COVID-19 telephone triage — Mar 2020 – 2022
SNS 24
